

## **Annual Report 2025**

### **From Foundations to Impact**

#### **1. Executive Summary**

2025 marked a transition year for Resilient North Uganda — moving from organizational set-up and pilot activities toward structured, donor-ready programming. The organization strengthened partnerships, refined project designs, and expanded farmer-focused climate resilience initiatives.

#### **2. Strategic Objectives (2025)**

- Strengthen farmer resilience to climate change
- Improve adoption of Good Agricultural Practices (GAP)
- Promote Climate-Smart Agriculture (CSA) technologies
- Enhance household income and food security
- Build credible systems for monitoring, evaluation, and learning (MEL)

#### **3. Program Highlights (2025)**

##### **3.1 Farmer Training & Extension**

- Delivered **structured training on GAP and CSA** to smallholder farmers
- Focused on soil fertility management, improved seed use, and climate risk reduction

##### **3.2 Seeds of Change Initiative**

- Designed the **“Seeds of Change”** project targeting access to climate-resilient seed varieties
- Integrated farmer demonstrations and learning plots

##### **3.3 Partnerships & Engagement**

- Engaged NGOs, farmer associations, and development partners
- Initiated dialogue with international organizations on collaboration in agriculture and resilience programming

#### **4. Monitoring, Evaluation & Learning (MEL)**

- Developed basic MEL frameworks aligned with donor requirements
- Introduced outcome tracking for farmer training and technology adoption
- Prioritized learning briefs and evidence-based reporting

## 5. Governance & Organizational Growth

- Strengthened leadership and management roles
- Improved documentation, reporting, and compliance systems
- Enhanced visibility through reports, concept notes, and online publications

## 6. Financial Overview

RNU continued to uphold principles of transparency, accountability, and value for money while preparing for larger donor-funded projects.

*(Audited financial reports will be produced once donor-funded implementation begins.)*

## 7. Priorities for 2026

- Scale CSA and GAP programming to additional districts
- Secure multi-year donor funding
- Expand farmer reach and deepen impact measurement
- Strengthen partnerships with government and development agencies
